

I am strongly against any proposal that would lessen Indiana's TX Privacy Law. Our work day starts at 4:45 am every morning and we get home for supper around 6:00 or 6:30 pm. It wasn't uncommon to get 3 to 4 of these calls every evening. Diminishing the protection that we have enjoyed from telemarketing calls would be a shame. It's difficult for me to imagine anyone other than those with personal business interests willing to tolerate this invasion of privacy. Thank you for your time.
